-  Image transmission

NETBOX Point:

Seamless, Space-Smart & Stylish
Guests staying in small hotel rooms don't need technology that overwhelms. What they do need is a functional laptop workstation.

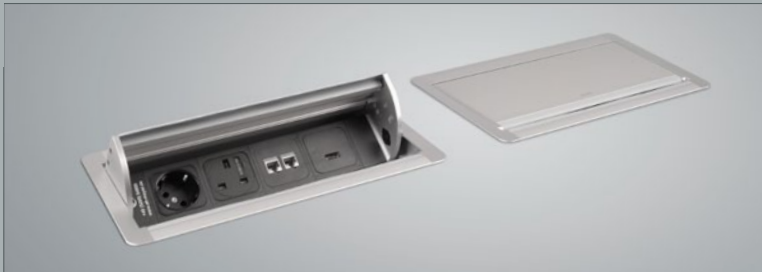

NETBOX Point is ideal for tight-space rooms and blends seamlessly with hotel furniture.

It can be easily and readily retrofitted into existing 80 mm cable outlet.

Available in five stylish and easy-to-coordinate colours, NETBOX Point's sedate design is suitable for a wide selection of layout and décor.

NETBOX Point's compact electrification system fits into standard 80 mm openings

The NETBOX Axial Comfort transforms a desk into a multi-functional connection terminal with a mere push of a finger.

NETBOX Axial Comfort:

It's all systems go with a push of a flap. From working on a laptop to charging a mobile phone battery, or enjoying music on the iPod via the stereo system to viewing the latest holiday pictures on the TV screen – the NETBOX Axial Comfort is an easy and practical solution.

The 'plug and play' principle of the NETBOX Axial Comfort delivers convenience and comfort when it comes to deploying electronic gadgetry in the privacy of the hotel room. Designed to fit snugly into any tabletop, the NETBOX Axial Comfort effortlessly turns the bedroom desk into a multi-purpose workstation.

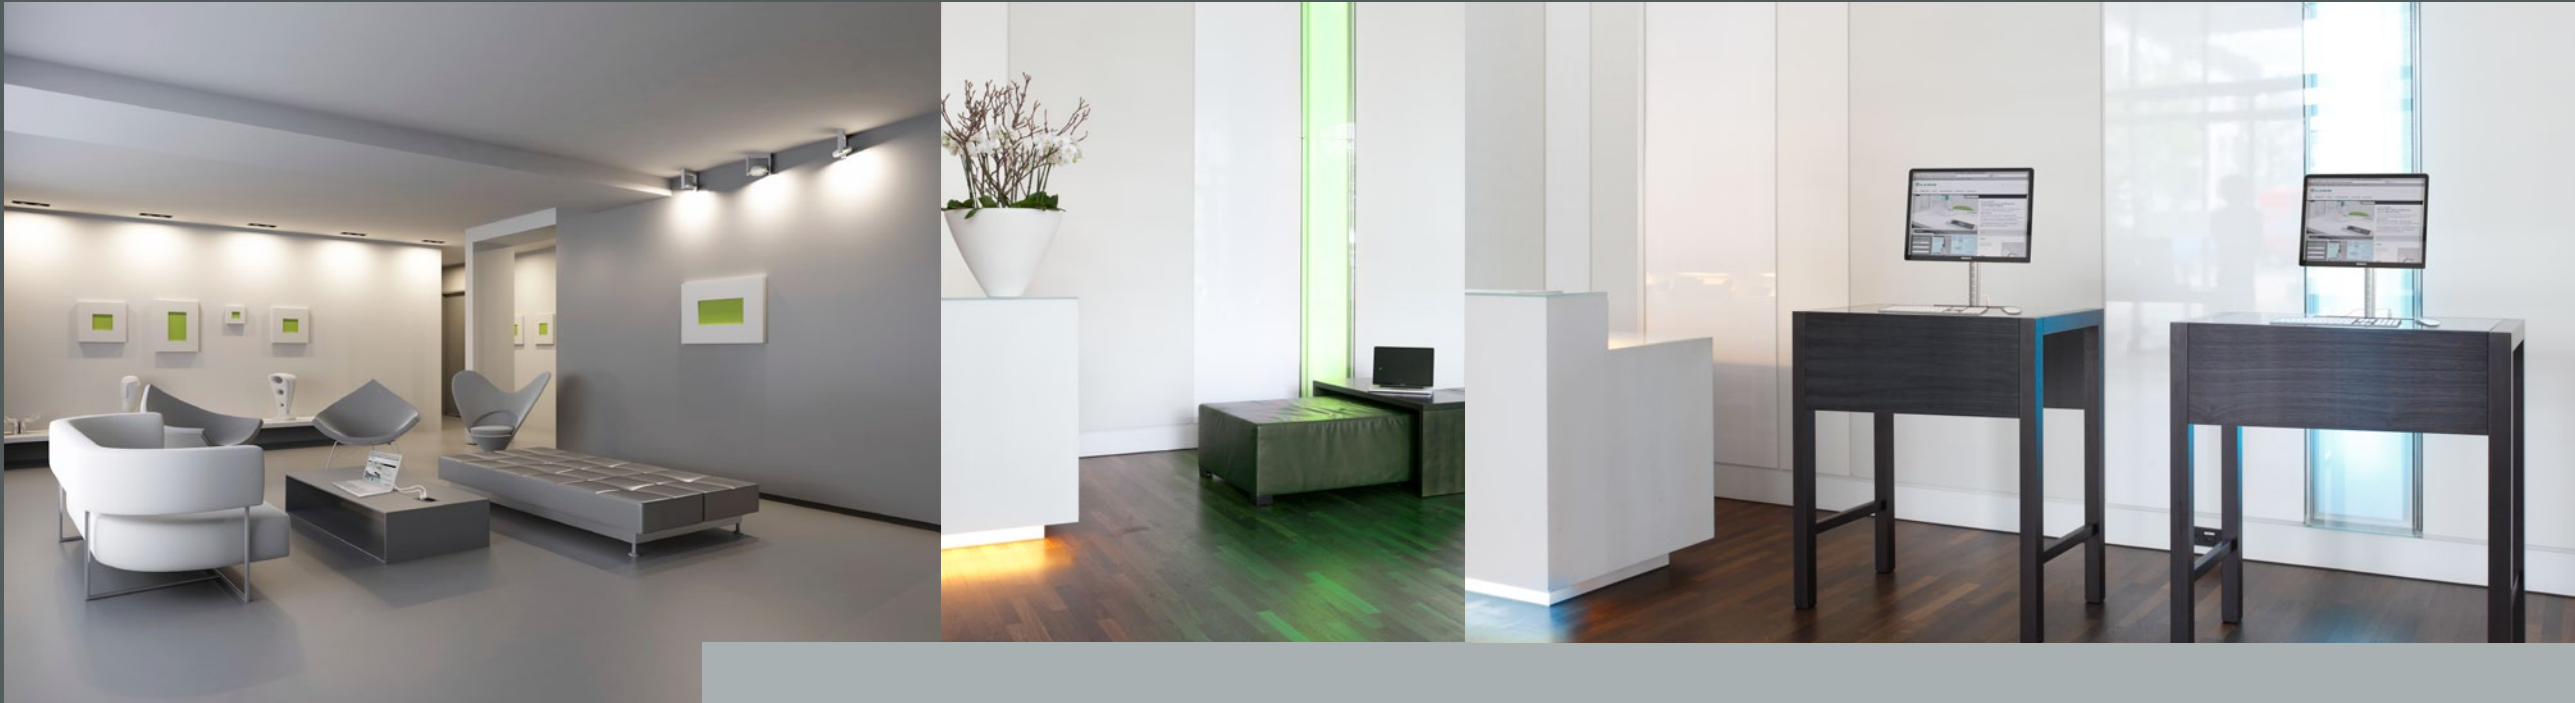

NETBOX Axial Comfort

- Multi-purpose workstation
- Flap mechanism: Box opens effortlessly with just a push of a finger
- Easy-to-reach connections
- A multitude of uses such as sending films, images and presentations to a television or beamer via HDMI
- High-speed Internet access

Options for use

-  Power supply
-  Internet connection
-  Headset
-  Image transmission

THE RECEPTION LOBBY –
YOUR MEDIA HUB

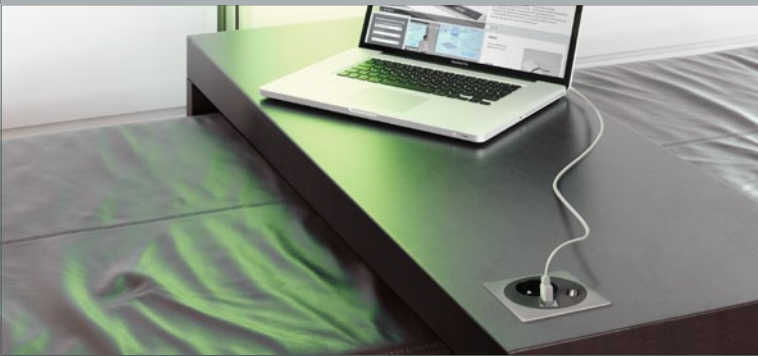

reddot design award
winner 2011

Advantages of media
connections in the
reception lobby:

- Efficient use of waiting time
- Media connectivity allows for informal meetings
- Imparts an atmosphere of modern comfort

Options for use

-  Power supply
-  Internet connection
-  Headset

NETBOX Point:
Wiring a Reception Lobby to the Hilt

Staying well-connected, technology-wise, while traveling has become the norm. So what better way to make guests feel right at home than to have a reception lobby equipped with convenient media connections: Waiting time can be used productively on the laptop to conduct informal meetings or to catch up on email.
